Order-in-Council

O.C. 1417/77

Copy of an Order-in-Council approved by Her Honour the Lieutenant Governor, dated the 15th day of May, A.D. 1977.

The Committee of Council have had under consideration the report of the Honourable the Attorney General, wherein he states that,

WHEREAS pursuant to the provisions of section 5 of *The Ministry of the Attorney General Act*, R.S.O. 1970, Ch. 116, the Attorney General shall superintend the administration of justice in Ontario;

AND WHEREAS the Attorney General deems it advisable in the administration of justice that a forensic psychiatric service be established within Metropolitan Toronto pursuant to such authority;

AND WHEREAS Her Majesty the Queen in right of Ontario directed the establishment of such a forensic psychiatric facility within Metropolitan Toronto;

The Honourable the Attorney General after due consideration of the facts, therefore recommends that pursuant to the aforesaid direction and the authority of subsection (c) of section 5 of *The Ministry of the Attorney General Act*, the said forensic psychiatric service be implemented as follows:

- (1) A psychiatric service shall be and is hereby established and known as the Metropolitan Toronto Forensic Service (METFORS).
- (2) The unit shall be located at Queen Street Mental Health Centre in the City of Toronto.
- (3) A psychiatrist in charge shall be appointed by the Attorney General on the recommendation of the Clarke Institute of Psychiatry.
- (4) A board shall be established which shall be responsible to determine policy in relation to providing such psychiatric service for courts in Metropolitan Toronto and elsewhere in the discretion of the board and other matters of policy and management which come before it;
 - (a) the board shall be composed of five members, one of whom shall be the psychiatrist from time to time in charge of psychiatric service for METFORS and the balance shall be appointed as follows:
 - (i) one member by the Attorney General for Ontario;
 - (ii) one member by the Minister of Health for Ontario;

(iii) one member by the Minister of Correctional Services for Ontario; and

(iv) one member by the Clarke Institute of psychiatry;

(b) the persons appointed under clauses (i) to (iv) inclusive of subparagraph (a) hereof may be replaced at any time in the absolute discretion of the respective appointing parties from time to time. The psychiatrist in charge of psychiatric services for METFORS shall cease to be a board member when he ceases to perform the duties of that office and he shall be replaced on the board by the person named as psychiatrist in charge from time to time; and

(c) a majority decision of board members shall be binding.

(5) The board shall

(a) report annually to the Attorney General for Ontario and make recommendations with respect to development of METFORS in Metropolitan Toronto and extension of the facility elsewhere in the Province;

(b) submit a budget for consideration and presentation by the Attorney General and Minister of Health to the Management Board of Cabinet for the Province of Ontario by the 30th day of November in each year of operation for the ensuing year commencing April 1st next.

(6) The budget attached hereto shall constitute the first year's budget and be administered by the Ministry of Health. Advances shall be made by it semi-monthly in the amounts required to meet the obligations of METFORS from time to time according to and within the limitations of the budget.

The Environmental Assessment Act, 1975

MTCL-12

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

Exemption Section 30

Having received a request from the Minister of Transportation and Communications and the Minister of Natural Resources, that an undertaking, namely:

Phase I of the Development Plan for the Puslinch Crown Resource Management Area consisting of the following activities:

1. Stripping of overburden and placement into berms;
2. Extraction, above and below water table, of 200,000 tons of aggregate;
3. Crushing of the above-noted extracted aggregate material;
4. The stockpiling and/or utilization of all or any part of the above-noted aggregate material on road works until exhausted;
5. Provision of ingress and egress to and from King's Highway #401 for M.T.C. contracts;
6. The placement of topsoil, refurbishing vegetation, soil stabilization materials and the implementation of fine grading activities all being consistent with the attainment of the rehabilitation of the site;

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

1. The Crown will be interfered with and damaged by the indeterminate delay of a project which has the following benefits:

- the creation of a demonstration site to personnel of the Ministry of Transportation and Communications, the Ministry of Natural Resources, the Aggregate Industry, the contracting industry and the public of a progressive and planned approach in the extraction and rehabilitation of a demonstration gravel extraction site,

- the provision of a recreational pond for the unrestricted use by the angling public complementing the Sports Fisheries Programme of the Ministry of Natural Resources,

- the enhancement of an area which is currently devoid of productive capacity because of the presence of an inadequately rehabilitated gravel pit,

- the anticipated significant cost savings to the Ministry of Transportation and Communications due to the proximity of this gravel source to the King's Highway #401 resurfacing contract and the payment of royalty charges since the gravel is crown-owned,

- the anticipated savings to the Corporation of the Township of Puslinch and the Corporation of the County of Wellington and possibly other municipalities who may utilize, at cost, the stockpiled crushed aggregate for road works under wayside permits,

- the resulting non-required use of local roads for haulage on M.T.C. contracts,

- the resulting non-required need to open a new wayside pit or pits,

and the following disbenefits:

- noise of crushing and extraction operations to adjacent landowners for a few months,

- increase in truck traffic during hauling operations by municipalities on local roads,

- the presence of a stockpile of crushed aggregate, which will be so located so as to be perceptible only to those utilizing a short section of Township road immediately adjacent to the stockpile.

2. The public will be interfered with by the delay in the benefits to be derived through the use of the site as a demonstration aggregate extraction area employing a planned and progressive approach in the extraction and rehabilitation of a demonstration of a gravel extraction site.

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act; I am of the opinion that it is in the public interest

to order and do order that the undertaking is exempt from the application of the Act for the following reasons:

1. Planning commenced in January, 1974, before the proclamation of the Act, and contract documents for highway construction have been prepared based on the utilization of this source of aggregate.
2. The protection, conservation and wise management of the environment will be sufficiently provided for by the detailed planning procedures which have been conducted and the detailed contract documents which have been drafted to meet the spirit and intent of the Act.
3. The undertaking is unlikely to have any significant adverse effects on the environment and, therefore, the interference with the Ministry of Transportation and Communications and the Ministry of Natural Resources programme as described which would be caused by the application of the Act would be undue.
2. The activities detailed at the beginning of this exemption order (Articles 1-6 inclusive, page 1) be substantially complete by December 31st, 1977 except for the utilization of any remaining stockpiled material.
3. Ingress and egress to or from the property for the contracts of the Ministry of Transportation and Communications only be by an opening onto King's Highway #401.
4. Municipalities not be allowed to remove and use aggregate from the stockpiled source at any time except under the authority of a wayside permit issued by the Minister of Natural Resources and no such permits be issued except with respect to material stockpiled as part of Phase I.
5. Public information centres be conducted in the local area by the proponents before extraction proceeds.

This order comes into force and has effect on and after the day upon which it is signed.

Dated at Toronto this 24th day of May, 1977.

GEORGE A. KERR
Minister of the Environment

This exemption is subject to the following terms and conditions:

1. For those phases of plan implementation with the exception of Phase I, the joint proponents prepare and submit an Environmental Assessment.

Treasurers' Sales of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Ministry of Government Services for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Ministry of Natural Resources whether or not the land or any part can be purchased or leased from the Ministry. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, land advertised for sale in the Gazette may be bought by the municipality, or the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.

ONTARIO ENERGY BOARD

NOTICE OF APPLICATION AND HEARING

TAKE NOTICE that an application dated June 17, 1977, has been filed by Northern and Central Gas Corporation Limited under Section 19 of *The Ontario Energy Board Act* for orders approving or fixing just and reasonable rates and other charges for the sale of gas. All customers of the Applicant are affected.

The application includes a request for an interim order, pending final determination by the Board, authorizing an increase in the Applicant's rates to recover the increased gas costs resulting from an expected increase of approximately 16¢ per Mcf in the price of gas purchased from TransCanada Pipelines Limited on and after July 1, 1977. The application also requests the setoff against the purchased gas cost increase of those amounts under the Board's Refund Order E.B.R.O. 314-I-17, dated February 14, 1977, which the Applicant has been unable to refund.

The Board has appointed Monday, July 25, 1977, at 1.30 p.m. in its Hearing Room, 9th Floor, 14 Carlton Street, Toronto, Ontario, for the hearing of the request to recover on an interim basis the increase in the cost of gas purchased from TransCanada Pipelines Limited expected to come into effect July 1, 1977, and the request regarding the setoff of those amounts which the Applicant has been unable to refund. In its decisions the Board may increase or decrease any rate proposed by the Applicant, and may specify an effective date other than that proposed.

By direction of the Board, municipalities are to be served with notice personally or by registered mail, and all other persons affected are to be served by newspaper publication of a notice similar to this. If any person notified does not attend at the hearing, the Board may proceed in his absence and he will not be entitled to any further notice in these proceedings.

Any person who intends to oppose the application or the request for an interim rate order or otherwise

intervene shall, within 14 days after the day of service of notice upon him, file in duplicate with the Board at 14 Carlton Street, Toronto, Ontario, M5B 1K5, and serve upon the Applicant's solicitor, Mr. Peter F. Scully, General Counsel, Northern and Central Gas Corporation Limited, 245 Yorkland Boulevard, Willowdale, Ontario, M2J 1R1, his answer containing a clear and concise statement of his interest and his grounds for opposing or otherwise intervening, and being endorsed with his name and address and, if documents are to be served on his solicitor, his solicitor's name and address. Because the main application is in general terms at this stage, and the ultimate rates and other charges to be proposed by the Applicant are not yet known, the answer to the main application may be given in general terms. More specific grounds are required for opposing the request for an interim rate order. Filing or service may be personal or by registered mail.

The Applicant has been directed to file with the Board and to have available for public examination at the Applicant's principal office at 245 Yorkland Boulevard, Willowdale, Ontario, not later than July 6, 1977, copies of the evidence in support of the request for an interim rate order. Copies thereof are also to be served on all intervenors as they become known.

Notice with respect to the hearing of the main and any further interim application, setting forth the times and places thereof, will be given at a later date.

Publication in THE ONTARIO GAZETTE is for purposes of public record only, and does not constitute service.

Dated at Toronto, this 20th day of June, 1977.

ONTARIO ENERGY BOARD:

S. A. C. THOMAS,
Secretary to the Board.

Note

The use of tetracyclines during tooth development (last half of pregnancy, infancy and childhood to the age of 8 years) may cause permanent tooth discoloration (yellow-gray-brown). This reaction is more common during long-term use of the tetracyclines, but has been observed following short-term courses. Enamel hypoplasia has also been reported. Tetracyclines should therefore not be used in this age group unless other antibiotics are not likely to be effective or are contra-indicated.

Hypertension: Fixed Combination Drugs

A fixed combination drug is not indicated for initial therapy of hypertension. Hypertension requires therapy titrated to the individual patient. Recognizing this, if the fixed combination drug meets that titrated dose of its individual components, its use may be more convenient in the management of the individual patient. The treatment of hypertension is not static, it must be re-evaluated as conditions in each patient warrant. Adapted from F-D-C Reports, Sept. 11, 1972, p 8 (FDA Cardiovascular Advisory Committee).

Hypertension: Fixed Combination Drugs

A fixed combination drug is not indicated for initial therapy of hypertension. Hypertension requires therapy titrated to the individual patient. Recognizing this, if the fixed combination drug meets that titrated dose of its individual components, its use may be more convenient in the management of the individual patient. The treatment of hypertension is not static, it must be re-evaluated as conditions in each patient warrant. Adapted from F-D-C Reports, Sept. 11, 1972, p. 8 (FDA Cardiovascular Advisory Committee).

Decision dated: April 22nd, 1977.

NOTICE OF MOTION OF ALVIN SKIPPEN TRANSPORT LIMITED

TAKE NOTICE that a Motion will be made before the presiding panel of the Ontario Highway Transport Board, on a date to be fixed by the Honourable Chairman of the said Board; for the purposes of re-opening the said hearing and permitting all parties to:

- (a) Re-argue the matter in question herein;
- (b) Introduce new viva voce testimony;

- (c) Such further order as this Honourable Board may deem meet upon the following grounds:

1. That the previous panel erred in granting the authority permitting the applicant to serve points and places in urban zones of Clarksburg, Thornbury and the Township of Collingwood in the face of virtually a complete lack of evidence of any public necessity and convenience relating to the said areas.

2. The applicant has interpreted or purported to interpret the Certificate issued as permitting service to Clarksburg and Thornbury.

3. The sitting panel erred in failing to make clear that Clarksburg and Thornbury cannot be served pursuant to the licence granted.

4. And upon such further and other grounds as this Honourable Board may deem just.

AND TAKE FURTHER NOTICE that the Respondent herein will be represented by:

AND IN THE MATTER OF the Application of Breadner Transport Limited heard by the Ontario Highway Transport Board on Monday, May 31st, 1976; Tuesday, June 1st, 1976; Wednesday, June 2nd, 1976; Thursday, June 3rd, 1976; and on Monday, June 7th, 1976; Tuesday, June 8th, 1976; Thursday, June 10th, 1976 and on Monday, July 5th, 1976.

Decision dated: April 22nd, 1977.

NOTICE OF MOTION

TAKE NOTICE THAT pursuant to Section 17 of *The Ontario Highway Transport Board Act*, Breadner Transports Limited intends to move the Ontario Highway Transport Board on a date fixed by the Chairman of the said Board for an Order directing a rehearing of the said application by way of argument only before the original Sitting Panel of said Board on the following grounds:

The Sitting Panel of the Board erred as follows:

- (a) in failing to give sufficient weight to the evidence adduced on behalf of the Applicant insofar as those portions of the County of Grey are concerned which have absolutely no service from any Highway carrier whatsoever;
- (b) in failing to provide the shipping public in both the Counties of Grey and Bruce and a large number of points in said Counties with a competitive transportation service since many of these points have service from only one licensed carrier;
- (c) in restricting the Applicant from serving specific urban municipalities the Sitting Panel frustrates a basic principle of transportation whereby a carrier obliged to service a rural area requires a volume urban area to efficiently give such a service;
- (d) in failing to place sufficient weight on the availability of a locally based Class 'A' carrier to effectively service the public in the Counties of Bruce and Grey as opposed to carriers based at substantial distances from these two Counties.

AND TAKE NOTICE THAT in support of this Notice of Motion will be heard argument by counsel on behalf of the Applicant and such further and other material as counsel may advise and this Honourable Board permit.

INTERPRETATION

3. In this plan,

- (a) "average farm yield" means the average of previous yields of the planted acreage computed by the Commission on the basis of acreage production records of the insured person or on such other basis as the Commission determines;
- (b) "black tobacco" means black tobacco grown in Ontario under contract to a processor.

DESIGNATION OF PERILS

4. The following are designated as perils for the purpose of this plan:

1. Drought.
2. Excessive moisture.
3. Excessive rainfall.
4. Flood
5. Frost.
6. Hail.
7. Insect infestation.
8. Plant disease.

DESIGNATION OF CROP YEAR

5. The crop year for black tobacco is the period from the 1st day of March in any year to the 1st day of May in the year next following.

CONTRACT OF INSURANCE

6. For the purposes of this plan, the entire contract of insurance for black tobacco shall be deemed to be comprised of,

- (a) the contract of insurance in the form prescribed by Regulation 156 of Revised Regulations of Ontario, 1970;
- (b) an endorsement for black tobacco in Form 1;
- (c) the application for insurance in Form 2; and

- (d) any amendment to a document referred to in clause *a*, *b* or *c* agreed upon in writing.

7. An application for insurance shall,

- (a) be in Form 2;
- (b) be accompanied by a premium deposit of at least \$35 unless the applicant authorizes payment of the premium by the processor; and
- (c) be filed with the Commission not later than the 15th day of May in the crop year in respect of which it is made or not later than such other date as may be determined from time to time by the Commission.

DURATION OF CONTRACT

8.—(1) A contract of insurance shall be in force for the crop year in respect of which it is made unless it is terminated in accordance with the regulations.

(2) Notwithstanding subsection 1, the contract does not insure against and no indemnity shall be paid in respect of any loss or damage which occurs prior to noon on the 24th day of May in the crop year.

COVERAGE

9.—(1) Subject to subsections 2 and 3, the coverage provided under a contract of insurance shall be 70 per cent of the average farm yield in pounds of the total acreage seeded to black tobacco by the insured person in accordance with the regulations.

(2) The coverage provided under subsection 1 shall be increased following each consecutive no claim year as follows:

1. Following the first no claim year, to 73 per cent of the average farm yield.
2. Following the second no claim year, to 76 per cent of the average farm yield.
3. Following the third no claim year, to 78 per cent of the average farm yield.
4. Following the fourth no claim year, to a maximum of 80 per cent of the average farm yield.

(3) The coverage provided under subsections 1 and 2 shall be decreased for claim years from the insured level in reverse progression to that prescribed by subsection 2 to a minimum of 70 per cent of the average farm yield.

(4) The number of pounds determined under subsections 1, 2 and 3 constitute the total guaranteed production under a contract of insurance.

(5) Where in the opinion of the Commission the insured person cannot provide adequate production records, the average farm yield shall be determined by the Commission on such other basis as it may approve.

10. The maximum amount for which the Commission is liable for a loss in production under a contract of insurance shall be the amount obtained by multiplying the total guaranteed production determined under section 9 by the established price per pound prescribed in section 11.

11. For the purposes of this plan the established price for black tobacco is 60 cents per pound.

PREMIUMS

12.—(1) The premium payable by an insured person is \$35 per acre.

(2) The premium prescribed by subsection 1 is in addition to payments in respect of premiums made by the Government of Canada under the *Crop Insurance Act* (Canada). O. Reg. 497/77, Sched.

Form 1

The Crop Insurance Act (Ontario)

BLACK TOBACCO ENDORSEMENT

WHEREAS the insured person has applied for crop insurance for black tobacco under The Ontario Crop Insurance Plan for Black Tobacco, hereinafter referred to as "the plan";

NOW THEREFORE, subject to *The Crop Insurance Act (Ontario)* and the regulations made thereunder, the contract of insurance between The Crop Insurance Commission of Ontario and the insured person is hereby extended to cover black tobacco.

HARVESTING OF PLANTED ACREAGE

1. All acreage planted to black tobacco in a crop year shall be harvested unless the Commission, upon application therefor in writing, consents in writing to,

- (a) the use of the planted acreage or any part thereof for another purpose; or
- (b) the abandonment or destruction of the insured crop or any part thereof.

EVALUATION OF LOSS

2.—(1) Where loss or damage occurs at any time after the completion of planting, the Commission, upon application therefor in writing by the insured person, may consent in writing to,

- (a) replanting of the damaged acreage and, in such case, the replanting shall be completed not later than the 15th day of June in the crop year or not later than such other date as may be determined from time to time by the Commission; or
- (b) the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential production thereof.
- (2) Where the damaged acreage is replanted to the insured crop in accordance with clause *a* of subparagraph 1, the contract of insurance shall continue to apply to such replanted acreage.
- (3) Where the damaged acreage is used for any other purpose or the insured crop is abandoned or destroyed in accordance with clause *b* of subparagraph 1, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated by multiplying the difference between the guaranteed production and the potential production for the damaged acreage by the established price per pound.
- (4) Where the damaged acreage is not used for any other purpose or the crop is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 3 shall not be taken into account in the final adjustment of loss.
- (5) Where the actual production of the harvested acreage is less than the guaranteed production for such acreage, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated by multiplying the difference between the guaranteed production and the actual production by the established price per pound.
- (6) Where, as a result of an insured peril, the insured crop or any part thereof is reduced in market value, the actual yield of the crop or part

thereof so damaged shall be deemed to be reduced in the ratio of the price received to the contract price for black tobacco in respect of the crop year.

FINAL ADJUSTMENT OF LOSS
FOR TOTAL PLANTED ACREAGE

3. The indemnity payable with respect to the total planted acreage in the final adjustment of loss shall be the sum of all loss calculations applicable to such acreage, but where,

- (a) the actual production of any harvested acreage; or
- (b) the potential production of any unharvested acreage,

exceeds the guaranteed production of such acreage, the indemnity otherwise payable shall be reduced by the amount obtained by multiplying such excess by the established price per pound.

VARIATION IN PLANTED ACREAGE

4. Where the actual planted acreage of the insured crop is less than the acreage stated in the application, the insured person shall, not later than the 1st day of August, notify the Commission in writing and the total guaranteed production and the maximum amount of indemnity shall be reduced proportionately.

IN WITNESS WHEREOF The Crop Insurance Commission of Ontario has caused this endorsement to be signed by its general manager but the same shall not be binding upon the Commission until countersigned by a duly authorized representative thereof.

Treasurers' Sales of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Ministry of Government Services for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Ministry of Natural Resources whether or not the land or any part can be purchased or leased from the Ministry. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, land advertised for sale in the Gazette may be bought by the municipality, or the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.

The Environmental
Assessment Act, 1975

OHQ-17

THE ENVIRONMENTAL ASSESSMENT
ACT, 1975

Exemption Section 30

Having received requests from the Minister of Energy and Ontario Hydro that an undertaking, namely:

The program of planning, designing, constructing, operating and maintaining a 3400 megawatt nuclear generating station project on the Darlington site,

be exempt from the application of the Act pursuant to section 30; and

Having been advised by Ontario Hydro that if the undertaking is subject to the application of the Act the following injury, damage or interference with the persons and property indicated will occur:

1. The public will be interfered with by delay in installing generating capacity which would result in either more costly replacement generation being required or in power shortages;
2. Ontario Hydro will be interfered with and damaged by the undue delay and expense resulting from having to provide an environmental assessment for a project that was well advanced prior to the Act being proclaimed in force; and

Having been advised by the Minister of Energy that a delay in the Darlington project could have very serious consequences on Ontario Hydro's ability to meet the demand for electricity; and

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order that the undertaking is exempt from the application of the Act for the following reasons:

1. Environmental Assessment should be carried out as an integral part of the decision making process for an undertaking, but, in the case of the Darlington project the Provincial Government and Ontario Hydro had made significant decisions regarding the provincial requirement for electrical capacity, the mode of generation and location prior to proclamation of The Environmental Assessment Act in accordance with the procedures followed prior to proclamation.
2. Parts of the undertaking are subject to the review and approval under The Environmental Protection Act, 1971; and The Ontario Water Resources Act.
3. Ontario Hydro has submitted a report on the environmental analysis for the undertaking including documentation of the public participation and review by Ontario

Government Ministries as well as a Community Impact Report to the Provincial Government.

This order comes into force and has effect on and after the dates on which it is signed.

Dated at Toronto, this 25th day of July, 1977.

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

Exemption Section 30

Having received a request from the Treasurer of Ontario and the Minister of Economics and Intergovernmental Affairs that an undertaking, namely:

The activity of constructing a municipal airport at Geraldton, Ontario, which is to be funded by the Ministry of Treasury, Economics and Intergovernmental Affairs and the Canada Department of Regional Economic Expansion, designed and constructed by the Ministry of Transportation and Communications and the Ministry of Government Services, part of which will be used by MNR for the storage of fire retardant materials for forest fire fighting purposes and which, upon completion, will be owned and operated by the Town of Geraldton,

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the person(s) and property indicated will occur:

1. The Crown and the public will be interfered with and damaged by the undue delay and expense required to prepare an environmental assessment for a project which the design work is substantially complete and construction tenders have been let and in the delay in provision of forest fire retardant storage facilities needed for fighting forest fires; and

Having weighed such injury, damage, or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order that the undertaking is exempt from the application of the Act for the following reasons:

1. The undertaking was well underway before the Act came into force and has reached a sufficiently advanced stage that interference with the various government Ministries involved and the Municipality of Geraldton which would be caused by the application of the Act would be undue; and
2. The loss of Crown timber and property during an extremely hazardous forest fire season due to delay in the provision of storage facilities for fire retardant chemicals could be severe.

This exemption is subject to the following terms and conditions:

1. This exemption order applies only to those airport facilities for which construction commences on or before September 1, 1978.

This order comes into force and has effect on and after the date upon which it is signed.

Dated at Toronto, this 14th day of July, 1977.

be exempted from the application of the Act pursuant to Section 30;

And having been advised that if the undertaking is subject to the application of the Act the following injury, damage or interference with the persons indicated will occur:

1. The Crown will be interfered with and damaged by the undue delay and expense required to prepare an environmental

assessment for this project which is needed by the Ministry of Health to carry out its industrial therapy programme in the area.

2. The persons who would participate in the industrial therapy programme in the area will be interfered with and damaged by delay in the implementation of that part of the programme to be carried out in the industrial therapy workshop.

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order subject to the terms and the conditions set out below that the undertaking is exempt from the application of the Act for the following reasons:

1. The undertaking is of a minor nature and would have been exempt if being constructed directly by the Minister of Government Services rather than being acquired by lease.
2. The proposed use of the land is consistent with the official plan and zoning by-laws affecting the site.
3. I am advised by the Ministry of Government Services that the municipality in which the undertaking is proposed to be located has affirmed that municipal services are adequate to service the proposed undertaking.

This exemption is subject to the following terms and conditions:

1. The construction of the building and the proposed use of the building be in conformity with By-law 8499 of the City of Kingston as it is approved by the Ontario Municipal Board.
